- English (Basic)
- Urdu (Native)

PROFESSIONAL EXPERIENCE

Present

-

2026

IT & Data Operations

One Stop Grocery | Islamabad

- Managing daily IT infrastructure, point-of-sale (POS) systems, and network state reliability.
- Handling high-volume product databases and inventory data synchronization layers.
- Managed inventory records and ensured product data stayed accurate between physical stock and digital systems.

2025

-

2025

Full-Stack Developer Intern

Ezitech Software House | Islamabad

- Collaborated on production-level web application features utilizing the MERN stack.
- Wrote clean, type-safe development components within active lifecycle sprints.
- Assisted in improving backend API responses and reducing unnecessary server requests.

2025

-

2025

Freelance Developer & Programming Tutor

Freelance & Private School

- Deployed live nodes like saeedhaircraft.site and primehairsaloon.site with DNS mapping.
- Configured deployments, DNS routing, and basic cloud infrastructure for live client websites.
- Taught foundational programming logic and basic computer science to students.
